

Dear DIGNITY Listserv members,

After you sign GEMS' Change.org petition, please join the Facebook group "Stop Craigslist Human Trafficking - Go EBay Classifieds" and join a Craigslist boycott that still lets you use a free, high-traffic online classifieds service to rent an apartment, find a couch, etc.

www.EBayClassifieds.com is a comparable, city-by-city online classifieds service that prohibits the "adult services" postings that allow human traffickers to operate freely on Craigslist.

Until Craigslist responds to ethically based arguments to make its marketplace hostile to human traffickers, consumers must make an economic argument -- by voting with their participation/pocketbooks AGAINST Craigslist & FOR EBay Classifieds and other online classifieds/swapping/selling venues.

Please invite your family, friends, co-workers, and faith communities to do the same.

Best,

Laura Good
